Bioera

JUST BIOTECH

Reg. nº F0003958/2029

Bactel Fruit

Product for application via irrigation

Properties and effects

- ✔ Promotes soil microbial activity.
- ✔ Improves rooting, sprouting, fruit setting, and growth.
- ✔ Eliminates problems of root fatigue and atrophy.
- ✔ High concentration product.

How to use

Apply at specific phenological stages: rooting, sprouting, flowering, fruit setting, and fruit growth at a dose of 1 kg/ha. It is recommended to apply it together with Alghefit (1 kg/ha) or Saviavital K (20 l/ha). The application frequency will depend on the crop.
